WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY

International application No.
PCT/US05/16430

Box No. V Reasoned statement under Rule 43 bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims <u>NONE</u>	YES
	Claims <u>1-24</u>	NO
Inventive step (IS)	Claims <u>1-5 and 15-20</u>	YES
	Claims <u>6-14 and 21-24</u>	NO
Industrial applicability (IA)	Claims <u>1-24</u>	YES
	Claims <u>NONE</u>	NO

2. Citations and explanations:

Claims 1-5 and 15-20 lack an inventive step under PCT Article 33(3) as being obvious over Cross. It would have been obvious to one having ordinary skill in the art at the time that the invention was made that the spherical elements disclosed by Cross could be replaceable and made of the various material recited in the claims.

Claims 1-5 and 15-20 lack an inventive step under PCT Article 33(3) as being obvious over York. It would have been obvious to one having ordinary skill in the art at the time that the invention was made that the spherical elements disclosed by York could be replaceable and made of various material recited in the claims.

Claims 6-14 and 21-24 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest a massage tool having a second opening through a back side that is smaller than a first opening through a front side of a interior surface that forms a socket in the device.

Claims 1-24 meet the criteria set out in PCT Article 33(4), and thus demonstrate industrial applicability because the subject matter claimed can be made or used in industry.
